

SCREAMFEEDER ABOVE THE DOVE

Here's the new Screamefeeder single, "**ABOVE THE DOVE**"!

It's from our new album "**ROCKS ON THE SOUL**". It's one of the songs that was prized the furthest out of its original shell under the patient and caring guidance of the **POUND SYSTEM**.

The song is about all the people who believe that the aliens walk amongst us already and are going to save us one day, and take us to some magical new place in the stars. We say they have better things to do. You **won't** be allowed above the dove, to the safety of the clouds.

Also on the single are: "Oh My God It's Full Of Stars" – our 7 ½ minute movie soundtrack epic, and continuing the sky/space/insect theme which runs through the single, "Airlift King" (it almost made it onto the album, but didn't quite).

Brought to you by Tim Steward, Kellie Lloyd and Dean Shwereb, we hope you all enjoy **ABOVE THE DOVE**.
