screamfeeder // the embargo is over

Brisbane indie rock heavyweights **Screamfeeder** have recently gained complete control of their entire back catalogue of 8 albums, 4 EPs and numerous singles. The band are now administering all titles digitally and physically. In all the excitement they have been trawling the archives and have come up with a 40 song "album" of B Sides and rarities.

Remixes of 'feeder faves, rare overseas releases, every b side between 1992 and 2005, songs you've heard before and songs you haven't, instrumentals, home recordings, experiments and collaborations are all included on this massive round up.

Available exclusively in the digital domain, **CARGO EMBARGO** is out now via the band's Bandcamp site: www.screamfeeder.bandcamp.com

To celebrate, on Friday 30th September Screamfeeder will be giving the first 100 downloads of the entire album for free (bookmark the page and get in early).

Screamfeeder continue to tour sporadically, and their members are all involved in numerous awesome and prolific bands and musical projects.
